In the silence of this darken room my mind reels with a fragnan ce of your perfume

In your mind stormy thoughts are growing

Mhm I feel a cold cold wind a blowing woman I feel a cold cold wind a blowing

It's been a lifetime since I been close to you still no one really knows you like I do

With clouds in your mind and ray in your eyes a showing

Mhm I feel a cold cold wind a blowing woman I feel a cold cold wind a blowing

With my arms around you I hold you tight

Though you do the same to me girl you don't feel right

You've got a way of leavin' without going

Mhm I feel a cold cold wind a blowing woman I feel a cold cold wind a blowing $\ensuremath{\mathsf{I}}$
