

Good Old Fashioned Country Christmas

Buck Owens

We're packin' up our clothes and we're goin'
We're headin' out to some place where it's snowin'
Cause for you and for me and the kids there's gonna be
A good old fashion country Christmas
Some folks enjoy Christmas in the city
To them downtown shopping seems all pretty
But for you and for me and the kids there's gonna be
A good old fashion country Christmas
Well we'll chop some fire wood and pop some popcorn for the Christmas tree
We'll hang our stockings on the meadow there for ol' Saint Nick to see
And when our happy holydays have ended we'll head back to the city quite contented
With our hearts full of peace and with happy memories
Of a good old fashion country Christmas

Well we'll chop some fire wood...
I love the good old fashion country Christmas
