

## Let's Agree To Disagree

**Buck Owens**

The flame of love was burning high we vowed to never let it die  
But now you're growing tired of me so let's agree to disagree  
Let's agree to disagree there's nothing left for you and me  
You won't be happy till you're free so let's agree to disagree

I'll miss you but I'll live somehow in fact I miss you even now  
But you don't want no part of me so let's agree to disagree  
Let's agree to disagree
