

One Way Love

Buck Owens

You never think of giving you only take
And you don't seem to care how many rules you break
Although I know you're wrong I let you have your way
Anything to own your love just one more day
One way love that's all you have for me one way love is just plain misery
I say that we're all through and then you call me up
And once again I'm falling for your one way love

I guess you never loved me and you never will
For it don't seem no matter to you how I feel
So I'll play second fiddle if that's the only way
And hope that some day you'll come to my arms and stay
One way love that's all...
