

Over And Over Again

Buck Owens

Over and over
I've said that we are through
Over and over
I've said I'm leaving you
But when you say I love you my heart goes in a spin
And over and over I take you back again
Time and time again I've said this is the end
And told my heart forget what might have been
No matter what I'd do I can't get over you
I love you over and over again

Time and time again...
