When I Hold You

Buck Owens

When I hold you in my arms and kiss you
I know that I'll always miss you
If you ever left and went away
So, I know you would never leave me
And my heartache could greet me
Just to think that you would ever go astray

Hold me tight, kiss goodnight
And I'll never, never let you go
Let your charms fill my heart
Don't you ever, ever let it show
That your love isn't true
For it will break my heart in two
It could be such a shame
After all the love we knew

When I hold you in my arms and kiss you
I know that I'll always miss you
If you ever left and went away
So, I know you would never leave me
And my heartache could greet me
Just to think that you would ever go astray
