

Within My Loving Arms

Buck Owens

Come into my loving arms and forget it run into my loving arms
you won't regret it
I will be your rock and keep you safe from harm
If you will stay with me within my loving arms

The sunshine of your life just call to say goodbye it hit you l
ike a bow from the blue
Your big plans for the future have all gone up in smoke
Lost and lonely girl what will you do
Just come into my loving arms...
If you will stay with me within my loving arms
