

Back Down

Buckcherry

Oh yeah
Hey, how about this?
How about you call all your friends
That you know I never back down, never

Alright
I'm not asking you to give me sympathy
All I want from you is to give me what I need
And all I'm missing is a piece of the action
It all started with a chain reaction

You know I never back down (Back down)
I'm tired of fucking around (Back down)
I keep my feet on the ground (Back down)
But I never back down (Back down)

I could hardly stand to think of what you said
I don't like it that you occupy my head
Talkin' 'bout me and the waves come crashing
Set me on course for the main attraction

You know I never back down (Back down)
I'm tired of fucking around (Back down)
I keep my feet on the ground (Back down)
But I never back down (Back down)

The clock is ticking in my head
The colors that I see are red
I see the same headlines
Over and over again
Some of us our in the way
Some of us are just okay
Victims of our own minds
Over and over again
The clock is ticking in my head
The colors that I see are red
I see the same headlines
Over and over again
Some of us our in the way
Some of us are just okay
Victims of our own minds
Over and over and over again
Again

You know I never back down (Back down)
I'm tired of fucking around (Back down)
I keep my feet on the ground (Back down)
But I never back down (Back down)
You know I never back down (Back down)
I keep my feet on the ground (Back down)
But I never back down (Back down)
