

Come On

Buckcherry

People talk, and life is the test
So go out with no regrets
The soul is the window to who you are
But are you willing to show your scars?

Walk the line and state your business
You gotta take the trip

Come on
You can have it, but it ain't for free
Come on
I wanna show you what it means to me
Come on
From a place that's deep down inside
You gotta take a ride
To the other side
Come on

There ain't no rules, there ain't no shame
Nobody's fool and no one to blame
Keep on driving in your car
Don't stop, just be who you are

Once you're there, just dive right in it
And scratch it off the list

Come on
You can have it, but it ain't for free
Come on
I wanna show you what it means to me
Come on
From a place that's deep down inside
You gotta take a ride
To the other side
Come on

Whatever you want
Whatever you need
Whenever you are laying it down
I'm gonna show you what it means to me

Oh, come on
You can have it, but it ain't for free
Come on
I wanna show you what it means to me
Come on
From a place that's deep down inside
You gotta take a ride

Come on
You can have it, but it ain't for free
Come on
I wanna show you what it means to me
Come on
From a place that's deep down inside
You gotta take a ride
To the other side

Oh, come on
