

## Fall

**Buckcherry**

Maybe I am lost and complicated, tell me are you sick of it at  
all, tied down, tore up, threw up, held up, sinking, you take me  
with you even though your done

Loving you gave me a heart attack, now I'm this long lost soul  
left with these empty feelings

Now I'll all I want is just to get you back, cause it's a long  
life babe and I'll be standing here just to see you fall  
Are you dealing with a bad connection, broken down from the love  
we lost, stand out, hold up, back off, roll up, drinking, you  
take me with you even though your done

Loving you gave me a heart attack, now I'm this long lost soul  
left with these empty feelings

a story about revenge
