Fastback 69

Buckcherry

Dealing with the dragon
And this time I'm going to be flyin
I was right between the problem
And siding with the race of my heart
I don't want to greet the morning
I don't want to fill this place on this earth no more
I'll just sit back, tune out
And carry on fuckin up my mind

Fastback 69 and I think I'm dying
All the time I'm feeling strange
And cool dreams are dyin, yeah

Bouncin off the ceiling
Wide awake and it's just midnight
I was interested in nothing
And want no part of having a home
I don't want to greet the morning
Don't want to fill this place on this earth no more
I'll just sit back, tune out
And carry on fuckin up my mind

Fastback 69 and I think I'm dyin
All this time I'm feeling strange
And cool dreams are dyin
Fastback 69 and I think I'm dyin
I'm feeling lost in all this time
And my dreams are frightening

Dreams are frozen
She's got it all and still undressed
Upset in her mind
Frantic feedback
She's got it all and still undressed
Fastback 69

Fucked up, beat on the drums, the guy says
You got it all and still undressed
Upset, beat on the drums, the guy says
Open up your eyes and get up

I gotta feeling that this time
It's gonna be flying
I was underneath the spirit
And siding with the race of my heart
I don't want to greet the morning
I don't want to fill my place on this earth no more
I'll just sit back, tune out
And carry on fuckin up my mind

Yeah, oh yeah....
