

# Gettin' Started

Buckcherry

We're gettin' started  
We're gettin' started

Well, I heard it on the street  
The city never sleeps  
Tell me where should I begin?  
Better stay on the track  
never lookin' back  
Started all over again

Let's put this all thing together  
Lift my head up and I then I set myself fight to win

Say what you say  
Livin' it up like there's no tomorrow  
Give it away  
Always enough when we're just gettin' started  
Livin' it up and we're just gettin' started  
We're gettin' started

Gotta get it up my ass  
I can afford a scratch  
You know I got a couple of dreams  
And I made it to the front  
I know you think it's luck  
But baby, you ain't seen what I've seen

Let's put this all thing together  
Lift my cup up, I'm gonna stay here till I can see

Say what you say  
Livin' it up like there's no tomorrow  
Give it away  
Always enough when we're just gettin' started  
Livin' it up and we're just gettin' started  
We're gettin' started

We're gettin' started  
We're gettin' started  
We're gettin' started  
We're gettin' started

Say what you say  
We're gettin' started  
Livin' it up like there's no tomorrow  
Give it away  
We're gettin' started  
Always enough when we're just gettin' started  
Livin' it up and we're just gettin' started

Oh, say what you say  
Livin' it up like there's no tomorrow  
Give it away  
Always enough when we're just gettin' started  
Say what you say  
Livin' it up like there's no tomorrow  
Give it away

Always enough when we're just gettin' started  
Livin' it up and we're just gettin' started  
We're gettin' started  
We're gettin' started  
We're gettin' started (say what you say)  
We're gettin' started
