

Gluttony

Buckcherry

I get it started and then I'm broken hearted
'Cause I can't get a hold of the beast
It's like I'm blind, I'm running out of time
And everything I crave is out of reach

You say I drink too much, you say I fuck too much
So what the hell am I supposed to do?
I wanna die and kill my dirty mind

I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A glutton enemy has started

I take a dive and medicate my mind
'Cause I hate what I fucking see
It's all a grind, we're filling up our time
With the rules of society

You say I eat too much, you say I smoke too much
What the fuck am I supposed to do?
I wanna die and kill my dirty mind

I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A glutton enemy has started

I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A glutton enemy has started

Woah! Woah! Woah!
Woah! Woah! Woah!

I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A glutton enemy has started

I want it, I want it, I want it, I want it
I need it, I need it, I need it, I need it
I love it, I love it, I love it, I love it
A glutton enemy has started
