

Good Time

Buckcherry

I've been out living
I'm taking what I'm given
I'll hit you with a mission
Step up and turn it on
Come on let's turn it on

Anything can happen
Strap in for action
People singing, people dancing
So shut up and hit the floor
Let's go and hit the floor, woo!

And now you gotta do what you do
What you do, what you do
'Cause you're a gold mine, yeah

I wanna have a good time
Make it last all night, and get so high
'Til we reach the sky, you were so right
And it ain't no lie, I'm alive, yeah
I'm gonna have a good time, woo!

Ain't nobody trippin'
Cookin' in the kitchen
There ain't no point of fishing
Hooked up and ready to go
I'm ready to go

And now I'm coming through
Got the news what to choose
No more blues, it's been a long ride

'Cause I wanna have a good time
Make it last all night, and get so high
'Til we reach the sky, you were so right
And it ain't no lie, I'm alive, yeah
I'm gonna have a good time

How's everybody feeling?
Imma tell you how I'm feeling

Yeah, I wanna have a good time
Make it last all night, and get so high
'Til we reach the sky, you were so right
And it ain't no lie, I'm alive
Yeah, I wanna have a good time (good time)
We'll get so high (so high)
This is my life (my life)
I'm alive
I wanna have a good time
