

Hellbound

Buckcherry

I can't believe this, it's getting' wild in the city
There's a feeling, you can see it and it's gritty
Locomotion and it's everything I wanted
What cha holdin' cause I'm with it and I wanna
Get shocked tonight, and then I know I'm gonna feel all right

It's never enough blow the power out
Give it too much then it's much too loud
Am I headed for a break in the wall cause I tell you

We tore the place up, but we didn't tear it down
Everybody got a cut and there was more to go around
Now we're hellbound
Now we're hellbound

I'm like a soldier you got a target I can hit it
Like I told ya it's a habit and a livin'
Rollercoaster have a look over your shoulder
Getting' closer cause I'm with it and I wanna
Get shocked tonight, and then I know I'm gonna feel all right

We ain't gonna stop till we're down for the count
Callin' the cops won't do nothin' now
Are you ready cause it's gonna be a total destruction

We tore the place up, but we didn't tear it down
Everybody got a cut and there was more to go around
We tore the place up, but we didn't tear it down
Everybody got a cut and there was more to go around
Now we're hellbound

Oh we're gonna go down tonight, yeah you know it's gonna be all
right
Yeah we're going down tonight, now we're hellbound

We tore the place up, but we didn't tear it down
Everybody got a cut and there was more to go around

We tore the place up, but we didn't tear it down
Everybody got a cut and there was more to go around

We tore the place up, but we didn't tear it down
Everybody got a cut and there was more to go around
Now we're hellbound
Now we're hellbound
