

Here I Come

Buckcherry

Struggling with a catastrophe
Nothing makes sense and you wanna leave
Way to many lashes
And you're messin' with a gun
I know this ain't what you wanna be
Now you gonna make history
Everything is crashing
And you're never having fun

Dead or alive but not a suicide
Take it outside and look me in the eye
Like a shotgun look out here I come

Takin' my time we're going for a ride
What will I find who did ya undermine
Take evasive action and go on the run

Point the finger at society
Look at us now an atrocity
Now we learn our lesson
Cause we're messin' with a bomb
It doesn't matter how it makes you feel
Cause the ones that like to kill, will kill
Watch out where you're steppin'
Or the lessons won't take long

Dead or alive but not a suicide
Take it outside and look me in the eye
Like a shotgun look out here I come

Takin' my time we're going for a ride
What will I find who did ya undermine
Take evasive action and go on the run

All these things take damn long the chaos now is coming on strong

Dead or alive but not a suicide
Take it outside and look me in the eye
Like a shotgun look out here I come

Takin' my time we're going for a ride
What will I find who did ya undermine
Take evasive action and go on the run

Dead or alive but not a suicide
Take it outside and look me in the eye
Like a shotgun look out here I come

Takin' my time we're going for a ride
What will I find who did ya undermine
Take evasive action and go on the run
Here I come
