

I Go Boom

Buckcherry

Talking 'bout my feelings, you don't want to hear it
Thinking that it might go away
Ticking like a time bomb, baby, I'm a wild one
I can see the look on your lace
Like a cut or a growl
I can strut I can prowl

I go boom
I can be anything
Boom
So sharp, I can sting
Boom
Keep your eyes on me
And watch what I can do when I go boom

Looking at me sideways
I don't want to play games
It's a lot of fucking around
I ain't tryin' to blame you
Burnin' up a short fuse
Maybe we should settle it now
Powered up, I get down
Ain't no rust on my crown

I go boom
I can be anything
Boom
So sharp, I can sting
Boom
Keep your eyes on me
And watch what I can do when I go boom

Get me to the next day
I've come a long way
I think I figured it out
This ain't a new wave
It's not the front page
It's coming straight from my mouth

Yeah, I go boom
I can be anything
Boom
So sharp I can sting
Boom
Keep your eyes on me
And watch what I can do when I go boom

I can be anything
Boom
So sharp I can sting
Boom
Keep your eyes on me
And watch what I can do when I go boom

When I go boom
