

Keep on Fighting

Buckcherry

Oh, yeah

A message, you want it, a head trip
There's gonna be a fire
Caught in, the rat race, it's too late
They're calling me a liar

Try and fight it but my head is strong
It's like I'm living out someone's nightmare
The ammunition feeling like a bomb
I try to hide it, but I know that I'm scared

You want more, you want more
I give you more and keep on fighting
It's in my core, to go to war
You want more, I'll keep on fighting

I'm crashing, I'm burning, I'm learning
There's more that I desire
I'm going, the wrong way, but I'll pay
And reach a level higher

I'm on the bottom but I got my faith
And I know there's opportunity out there
There ain't anyone to give me chase
Unless they bulletproof it with some hardware

You want more, you want more
I give you more and keep on fighting
It's in my core, to go to war
You want more, I'll keep on fighting

I'll keep on fighting
I'll Keep on fighting
I'll keep on fighting
Keep on fighting
I'll keep on fighting

You want more, you want more
I give you more and keep on fighting
It's in my core, to go to war
You want more, I'll keep on fighting

You want more (you want more)
You want more (you want more)
You want more
I give you more and keep on fighting
It's in my core (you want more) to go to war (you want more)
You want more, I'll keep on fighting

You want more, I'll keep on fighting
You want more, I'll keep on fighting
I'll keep on fighting
