

One and Only

Buckcherry

I think that things are gonna change
Everyone's playin' the blame game
We're at the end
It's counter active

So many now are seein' red
I guess we're leavin' them for dead
It's closin' in
What has happened?

You left me in the deep end
Paralyzed and sinkin'
Nothing can control me
This time is a one and only
I don't like what I'm seein'
What should I believe in?
Someone should've told me
This time is a one and only

If we just do what we are told
All that talk is gettin' old
Turn the page
And give it traction

All the people in disguise
Something's messin' with their minds
I see a rage
Gonna be a factor

You left me in the deep end
Paralyzed and sinkin'
Nothing can control me
This time is a one and only
I don't like what I'm seein'
What should I believe in?
Someone should've told me
This time is a one and only

I think that things are gonna change
Everyone's playin' the blame game
We're at the end
It's counter active

You left me in the deep end
Paralyzed and sinkin'
Nothing can control me
This time is a one and only
I don't like what I'm seein'
What should I believe in?
Someone should've told me
This time is a one and only

You left me in the deep end
Paralyzed and sinkin'
Nothing can control me
This time is a one and only
I don't like what I'm seein'

What should I believe in?
Someone should've told me
This time is a one and only
