

Right Now

Buckcherry

I've been around the world
But something's missing
It's always on my mind, taking up my time
It's all so wicked
I see it in my dreams when I sleep at night
Thought I'd come clean but I'm cold as ice
Hanging on tight to every word
Spoiling for a fight 'cause the pot's been stirred

My time is right now
My time is now

I do it for the love and I do it for the money
Take a look around you and look what I started
People gonna talk but they all keep comin'
Never miss a thing 'cause that's how I run it
My time is, my time is now
My time is right now

I think you're gonna see
See how I see it
Tell me what you feel, does it seem real?
'Cause that's how I'm livin'
Sacrificed almost everything
Battle with the fear inside of me
Playing this game by the truths been told
Might be insane but there's one thing I know

My time is right now
My time is now

I do it for the love and I do it for the money
Take a look around you and look what I started
People gonna talk but they all keep comin'
Never miss a thing 'cause that's how I run it
My time is, my time is now
My time is right now
My time is now, whoo!

My time is right now
My time is now

I do it for the love and I do it for the money
Take a look around you and look what I started
People gonna talk but they all keep comin'
Never miss a thing 'cause that's how I run it

I do it for the love and I do it for the money
Take a look around you and look what I started
People gonna talk but they all keep comin'
Never miss a thing 'cause that's how I run it

I do it for the love
(Yeah, yeah, yeah, yeah)
I do it for the money
(Yeah, yeah, yeah, yeah)
Take a look around you and look what I started

(Yeah, yeah, yeah, yeah

Yeah, yeah, yeah, yeah)

I do it for the love

I do it for the love

(For the love, for the love, for the love, for the love, for the love)
