

# Set It Free

Buckcherry

Now listen

I have lived a good life, traveled coast to coast  
Filled it up with sunshine, enough to feed my soul  
No more lookin' behind me, and no more tears  
Well, I just keep on grindin' and I never give into fear

So stand up and get on your feet  
Let's raise hell, and go hit the streets  
Don't you know, it's time to hit the road

Set yourself free  
Free yourself from what you're thinking  
Be whatcha wanna be  
Let the good times roll  
Tell me whatcha see, oh yeah  
If it's what you need, just believe, and set it free

I try to have a good time, everywhere I go  
Join me on the front lines, I'll show you what I know  
This time I'm more than likely to make myself clear  
I wanna thank you kindly, my friend, just for being here

So tip your hat and raise your drink it's who you are, not what you think  
Don't you know, it's time to just let go, yeah

Set yourself free  
Free yourself from what you're thinking  
Be whatcha wanna be  
Let the good times roll  
Tell me whatcha see, oh yeah  
If it's what you need, just believe, and set it free

Set yourself free  
Free yourself from what you're thinking  
Be whatcha wanna be  
Let the good times roll  
Tell me whatcha see, oh yeah  
If it's what you need, just believe, and set it free

Set yourself free  
Set yourself free  
Be whatcha wanna be  
Be whatcha wanna be  
Tell me whatcha see, oh yeah  
Tell me whatcha see  
If it's what you need, just believe, and set it free  
If it's what you need, just believe
