

# So Hott

**Buckcherry**

Just a little crazy, from a little town  
And you always did what your momma said till you left the house  
Hit the ground running  
Let the devil in let  
Your body talk, and you got the walk  
Breaking hearts again

Sometimes you keep your secrets to yourself  
And I can't tell if you're grateful but you ain't hateful  
And you don't even know who's calling on your phone

YOU'RE SO HOT, I think I need another shot  
But you don't care you're SO HOT  
You got em circling your block  
Don't ever stop you're  
SO HOT!

Like a butterfly, floating in the wind  
Moving in and out and without a sound where do I begin  
Do what cha want to, live how ya live  
Ain't no doubt she gonna rock the house and lets chaos in

I don't think you're an angel I see no halo... oh lord  
The stories all getting' tangled filling your stable... hold on  
And everywhere you go they treat you like you're gold

YOU'RE SO HOT, I think I need another shot  
But you don't care you're SO HOT  
You got em circling your block  
Don't ever stop you're  
SO  
Girl you know you're  
SO HOT

Girl you know you're  
SO HOT  
Make em harder than a rock  
Oh my god you're  
SO HOT

YOU'RE SO HOT, I think I need another shot  
But you don't care you're SO HOT  
You got em circling your block  
Don't ever stop you're  
SO HOT!

I think I need another shot  
But you don't care you're  
SO HOT  
You got em circling your block  
Don't ever stop you're  
SO HOT!
