

# The Alarm

Buckcherry

All I wanna do when I wake up in the morning  
Is call my friends and go looking for a party  
Waste a little time with a lotta daydreaming  
Out of my mind and I'm thinking 'bout the weekend

Take this thing right off the tracks  
Push everything right to the max

Sound the alarm 'cause the weekend's almost here  
[?] from the West Side [?] for a good time  
Sound the alarm 'cause tonight is gonna make our year

Ain't got time to sit and drown in my sorrows  
Ain't about the past and it ain't about tomorrow  
It's about now, I've been making that money  
Better than a kiss and it's sweeter than honey

Don't be late, no holding back  
Gotta be the part I built to last

Sound the alarm 'cause the weekend's almost here  
[?] from the West Side [?] for a good time  
Sound the alarm 'cause tonight is gonna make our year

Sound the alarm 'cause it's time to wake up the dead

Sound the alarm 'cause the blood is rushing through my head

I'm in the middle of the chaos screaming  
Won't be going home and I won't be sleeping  
Right about now is when we all go loco  
Coming in and I'm coming for the polo

Take this thing right off the tracks  
Push everything right to the max

Sound the alarm 'cause the weekend's almost here  
[?] from the West Side [?] for a good time  
Sound the alarm 'cause tonight is gonna make our year

Sound the alarm 'cause it's time to wake up the dead

Sound the alarm 'cause the blood is rushing through my head
