

The Way

Buckcherry

I have tried, and I have waited
It's been a long time, and time was wasted
I know you're scared, you used to trust me
It wasn't fair and all this cuts me

When I sleep and when I wallow
I regret the past and fear tomorrow
But I know there's one thing I can do
Is close my eyes dig deep inside and tell you

I like the way you love me
I like the way it makes me feel
You lift me up when times were tough
And showed me what was real
You got this way about you
You are so calm when I'm a storm
The hills we climbed
And tears we've cried
It's you that I adore

I have lied and I was faithless
I made you cry and I wish I could change it
I see your pain I know what caused it
I'm so ashamed and I feel so toxic

I don't mean to make it harder
All your tears has left me hallow
Don't care bout nothing else but you
And what you find may blow your mind and break through

I like the way you love me
I like the way it makes me feel
You lift me up when times were tough
And showed me what was real
You got this way about you
You are so calm when I'm a storm
The hills we climbed
And tears we've cried
It's you that I adore

I will take my time, we can make it through
Look me in the eyes, I got my eye on you
Never say good bye, nothing left to loose
Let me make it right

You don't ever have think at all
Cause I'm the way you found me
I'm sorry that I did you wrong
I'm sorry about all fussing and fighting!
Didn't know that it would be this hard
But I'm feeling so empty
I'm sorry that it took so long
I'm sorry I should have done more but I'm trying!

You don't ever have think at all
Cause I'm the way you found me
I'm sorry that I did you wrong

I'm sorry about all fussing and fighting!
Didn't know that it would be this hard
But I'm feeling so empty
I'm sorry that it took so long
I'm sorry I should have done more but I'm trying!
