

# Warpaint

Buckcherry

I'm like a shotgun  
Hit you like a heart attack  
Drop you right down to the floor  
If there's a problem  
I can be a solider, bring a hurricane right to your door

Everybody's talkin'  
Talkin' 'bout their problems  
Problems showing up at the door

Are you gonna stop 'em?  
Leave 'em at the bottom  
Some are rotten to the core

I wanna kiss the night away  
I wanna sleep all through the day  
Forget all my problems  
Life is a hard one  
Tattooed on my face  
It's my warpaint

It's a long one  
Fighting with my regrets  
Am I getting out of this place?  
I wanna have fun  
Blowing out your ear drums  
Keep it rocking state to state

Now it's getting hotter  
Lead 'em, never follow  
I'm better off with no one to blame

This is what I wanted  
Finish what I started  
Some things, they don't ever change

I wanna kiss the night away  
I wanna sleep all through the day  
Forget all my problems  
Life is a hard one  
Tattooed on my face  
It's my warpaint

I feel it deep inside  
Gotta look through my eyes  
'Cause it occupies my soul  
The things that I need  
Are the things you can see  
I believe in the unknown

I watch the sun go down  
And my thoughts get loud  
And open up the gates  
Let all my feelings out  
Maybe I'll scream and shout  
Let all my feelings out  
Maybe I'll scream and shout

Maybe I'll scream and shout  
Maybe I'll scream

I wanna kiss the night away  
I wanna sleep all through the day  
Forget all my problems  
Life is a hard one  
Tattooed on my face

I wanna kiss the night away  
I wanna sleep all through the day  
Forget all my problems  
Life is a hard one  
Tattooed on my face  
It's my warpaint  
It's my warpaint
