

# When the Sun Goes Down

**Buckcherry**

With the sunlight cookin' and a long day working, she can't wait until the sun goes down  
Gonna head out on the highway, stay out till the next day, do it when the sun goes down

Hey  
Let's go  
Hey  
Let's go

She don't need nothing 'cause her friends are coming and they party when the sun goes down  
Ain't no stoppin', the place is a rocking and it starts when the sun goes down

Look at her, she's wearing red  
She knows how to turn them heads  
Oh my God, I must confess, it just got crazy

Here she comes  
Right behind me  
Hotter than a burning flame  
Gonna find me  
Here she comes  
And get inside me  
She comes around when the sun goes down

When the sun goes down, she's all lit up  
When the sun goes down, can't get enough  
Off the rails, going to town  
Never fails when the sun goes down

Here she comes  
Right behind me  
Hotter than a burning flame  
Gonna find me  
Here she comes  
And get inside me  
She comes around when the sun goes down

Here she comes  
Right behind me  
Hotter than a burning flame  
Gonna find me  
Here she comes  
And get inside me  
She comes around, yeah

She draws a crowd, alright  
She's hellbound, when the sun goes down  
Alright
