

With You

Buckcherry

There is somethin' deep inside of me
And it's a call that I wanted to hide
It makes it all very hard to see
When there's sunlight fillin' my eyes

I see you there and you're fine as hell
I wanna know what the time will tell

We can stay or we can go
As long as I'm with you
You are safe inside my soul
Whenever I'm with you

All the feelings that I'm holdin' in me
The good time's harder to find
Started out when I was just a kid
I couldn't see through, I thought I was blind

And now you're standin' right in front of me
I was blind, but now I see you

We can stay or we can go
As long as I'm with you
You are safe inside my soul
Whenever I'm with you

We can stay or we can go
As long as I'm with you
You are safe inside my soul
Whenever I'm with you
Pick me up when I am low
I love when I'm with you
Feels so right and this I know
I want to be with you

With you
With you
With you
