

Don't Stop

Bucks Fizz

Don't stop
Don't keep me hanging on
Keep it up
I've been waiting all night long
Watching what you're doing
Seeing what you feel
I think I'm still confusing
Fantasy with real
Don't stop
Don't keep me hanging on

I saw a cool flung lady
In a long black dress
A tight little wiggle
Her legs are made for walking
She was a backcombed beauty
A real tutti-fruity
The odds were on
We might just end up talking

The night was lonely
'Til you came my way
To taught me things
I had to learn
It's getting warm
And now you're gonna stay
Feel my body burn

Don't stop
Don't keep me hanging on
Keep it up
I've been waiting
All night long
Watching what you're doing
Seeing what you feel
I think I'm still confusing

Fantasy with real
Don't stop
Don't keep me hanging on

I took a long cool sip
Of a long cool drink
My temperature rising
Faster I was sleeping

She had me running a fever
I tried to tease her
She saw right through my lines
And all my sleeping

The night was lonely
'Til you came my way
To taught me things
I had to learn
It's getting warm
And now you're gonna stay

Feel my body burn

Don't stop
Don't keep me hanging on
Keep it up
I've been waiting
All night long
Watching what you're doing
Seeing what you feel
I think I'm still confusing
Fantasy with real
Don't stop
Don't keep me hanging on

Don't stop
Don't keep me hanging on
Keep it up
I've been waiting
All night long
