

Getting Kinda Lonely

Bucks Fizz

When I think of you at all
The memories lie, lonely shadows fall
It hurts me so
Now the darkness covers me
And empty spaces where you used to be
Where did you go?
I thought I could live without your love
But that's just something I can't fight alone

Ooh, it's getting kinda lonely
It's getting kinda lonely
Now that you're away to stay
Ah, it's getting kinda lonely
It's getting kinda lonely
Now that you're away
But I never thought I'd get to say
It's getting kinda lonely

The sound of footsteps on the stair
Those old familiar feelings in the air
I think of them
Memories fade but never die
So baby you'll forgive me if I cry
Come home again
I thought I could take a heart inside
But it would never know how much I cry

Ooh, it's getting kinda lonely
It's getting kinda lonely
Now that you're away to stay
Ah, it's getting kinda lonely
It's getting kinda lonely
Now that you're away
But I never thought I'd get to say
It's getting kinda lonely

Ooh, it's getting kinda lonely
It's getting kinda lonely
Now that you're away to stay
Ah, it's getting kinda lonely
It's getting kinda lonely
Now that you're away
But I never thought I'd get to say
It's getting kinda lonely
