

Indebted to You

Bucks Fizz

Walk a lonely street
And think of when
There's nowhere to turn
That was how it was
Before I dreamt a dream of you
Before I knew
You could be here
Take away the pain and darkness

You taught me to love
You taught me to hate
It's true

With you I really learned how to love
I'm indebted to you
You turned me into something new
It's true, it's true
That with you
I really learned how to cry
I'm indebted to you
You showed me how to lie
I'm indebted to you

Walking next to you
I feel the warmth
Warmth of your love
Fighting like a child for me
And every move you make
I feel the touch
Touch of your hand
Pulling me towards your heart

So
Don't slip away
Don't leave in a day
It's true

With you I really learned how to love
I'm indebted to you
You turned me into something new
It's true, it's true
That with you
I really learned how to cry
I'm indebted to you
You showed me how to lie
I'm indebted to you

Turn from the night to the day
Don't let the word slip away
Make believe I'm for you

I'm indebted to you
Indebted to you
Indebted to you

With you I really learned how to love
I'm indebted to you

You turned me into something new
It's true, it's true
That with you
I really learned how to cry
I'm indebted to you
You showed me how to lie
I'm indebted to you

Indebted to you...
