

Lady of the Night

Bucks Fizz

Time, she walked into my life
Cutting it like a knife
Will she come again?
How will it ever end?

One word will say it all
So wait 'til morning falls
She'll break your mind in two
Where will it go she has to know

Waiting in nightfall
Waiting for her to call
Is she gonna be there?
Midnight love affair
Touching the darkness
Moments of madness
Secret encounter
But I can't be without her

I wait for the lady of the night
She comes and everything's alright
I need you lady of the night

Now she plays around for time
Just waiting for a sign
I have to go and hide
She's breaking me up inside
Each word she says today
She'll twist another way
There's nothing in her soul
Her lies they flow, she comes and goes

Waiting in nightfall
Waiting for her to call
Is she gonna be there?
Midnight love affair
Touching the darkness
Moments of madness
Secret encounter
But I can't be without her

I wait for the lady of the night
She comes and everything's alright
I need you lady of the night

One word will say it all
So wait 'til morning falls
She'll break your mind in two
Where will it go she has to know

Waiting in nightfall
Waiting for her to call
Is she gonna be there?
Midnight love affair
Touching the darkness
Moments of madness
Secret encounter

But I can't be without her

I wait for the lady of the night
She comes and everything's alright
I need you lady of the night
