

London Town

Bucks Fizz

In London town
London Town
Getting into London Town...

Hostile faces all around
I really wish I'd stayed home
More punches knock me down
Looks like I'm all alone
I just arrived
Does this thing happen all the time?

In London town
I'm getting into London town
In London town
I'm getting' into London town
In London town

Oh please don't get me wrong I'm fine
I'm really, really gonna like it
You beat me, I don't mind
I'm a social misfit
I'm so glad I'm here at last I know I'm gonna stay

In London town
I'm getting into London town
In London town
I'm getting' into London town
In London town

I am here to stay
And nobody will make me go away

I'm getting into London
In London town
In London town

Is this the right place for the rat-race
Can I play

In London town
I'm getting into London town
In London town
I'm getting' into London town
In London town

Oh yes I'm in love
With in London town
Oh please let me stay
In London town
Oh yes I'm in love
With London town
Oh I'm gonna stay
In London town
