

# One Touch Too Much

**Bucks Fizz**

I feel temptation reaching out and touching you  
Something strange is in the air  
I feel the fires and lies  
Each night I'm watching you  
Even though there's no-one there

These guilty feelings are because of you  
I can't believe the things I love to do  
When we touch

One touch too much  
One look of desire  
One touch too much  
Both hands into the fire  
One touch (one touch)  
One touch  
One touch (one touch)  
One touch too much

I will try to stay away but you keep haunting me  
I hear your voice when I'm alone  
Here tonight your satin fingers  
They're chilling me  
I feel your chill right to the bone

I had the situation in control  
Your magic pulled me in  
And I let go  
When we touch

One touch too much  
One look of desire  
One touch too much  
Both hands into the fire  
One touch (one touch)  
One touch  
One touch (one touch)  
One touch too much
