

Took It to the Limit

Bucks Fizz

Both sides chosen, wipe the tears away
Warm hearts frozen 'til another day
The look in your eyes I can see
Nothing there but lies
Am I right, can it be just a sad goodbye?
Goodbye

I think we took it to the limit
We took it to the limit
I think we took it to the limit

It doesn't pay, I'd love to say
We'll meet again another day
But in the end we have to pay

Old ties broken will they ever mend?
Sad words spoken, silence in the end
Look in your mind, can you find
Any room for me?
Is it real how I feel?
Should I make believe?
Believe

I think we took it to the limit
We took it to the limit
I think we took it to the limit

It doesn't pay, I'd love to say
We'll meet again another day
But in the end we have to pay

We took it to the limit
We took it to the limit
We took it to the limit
We took it to the limit

I think we took it to the limit
We took it to the limit
I think we took it to the limit

It doesn't pay, I'd love to say
We'll meet again another day
But in the end we have to pay

I think we took it to the limit
We took it to the limit
I think we took it to the limit

It doesn't pay, I'd love to say
We'll meet again another day
But in the end we have to pay
