

# Biggest Lie I Ever Told

Buddy Brown

I could just do this by myself  
Girl I don't really even need you at all  
And if you put on that little dress  
It won't get me hot and bothered later on  
And if you reach over and hold my hand  
While I'm driving down the road  
It won't get to me, get to me  
That's the biggest lie I ever told

And if you call me up at work  
I'll just tell you I can't talk right now babe  
And if you smile at me across the room  
I'll carry on like ain't nothing changed  
If you tell me that I'm the only one  
I won't lift you off your toe  
I won't kiss on you, kiss on you  
That's the biggest lie that I ever told

The biggest lie I ever told was I can do this on own  
That I don't need a woman by my side  
I'm independent to the bone so c'mon baby we both know  
That some day it'll all get old  
That's the biggest lie I ever told

And when we're dancing at a bar  
I ain't counting down the minutes till we leave  
When I can get you to myself  
All alone back in our bed under the sheets  
Yeah I'd be doing if we never met  
Totally in control  
I wouldn't need you baby, need you baby  
That's the biggest lie that I ever told

The biggest lie I ever told was I can do this on own  
That I don't need a woman by my side  
I'm independent to the bone so c'mon baby we both know  
That some day it'll all get old  
That's the biggest lie I ever...

The biggest lie I ever told was I can do this on own  
That I don't need a woman by my side  
I'm independent to the bone so c'mon baby we both know  
That some day it'll all get old  
That's the biggest lie I ever told
