

Don't Run From The Cops

Buddy Brown

If you get pulled over on the road
Just shut up and do as you're told
It ain't time to be a track star on the news
So your license got suspended
That's a week in county jail
But you take off running them boys 'bout to send you straight to hell

Everybody been thinking it
But I just been saying it out loud
It Kept me off country radio
But I got in good with the underground
'Cause I wasn't raised that way, hell no
And I think that most folks would agree
If you didn't do nothing wrong then why don't you just stop
Man don't run from the cops

If you don't raise your kids to respect those boys in blue
When they're 15 they gonna go viral on the news
I don't sympathize with a punk and I don't shed tears they put you aw
ay
You lucky you didn't get shot nine times only got your dumbass tased

Everybody been thinking it
But I just been saying it out loud
It Kept me off country radio
But I got in good with the underground
'Cause I wasn't raised that way, hell no
And I think that most folks would agree
If you didn't do nothing wrong then why don't you just stop
Man don't run from the cops

You might make it 100 yards
But son you ain't gon' go that far
That ole K-9's closing in right on your tail
And we'll all watch it on the news
Eating popcorn laughing too
It ain't the system you're just stupid as all hell

Everybody been thinking it
But I just been saying it out loud
It Kept me off country radio
But I got in good with the underground
'Cause I wasn't raised that way, hell no
And I think that most folks would agree
If you didn't do nothing wrong then why don't you just stop
Man don't run from the cops
Yeah, don't run from the cops
