

## Hold Out

Buddy Brown

Yeah I'm a hold out  
I don't change the way just 'cause it's Wednesday  
'Cause all the trends that we got now will one day go away  
But I'm rooted in never will

They call us hold outs  
Working hard to see our marriage go the distance  
So all the kids that we're all raising up here with us  
Will fear the Lord

And I'm praying that the coming generation  
Will understand the work it took to build this nation

'Cause I can shake you with the truth  
Or I can show you what to do  
Pick up the bible, turn off the news  
And love your neighbor  
Throw away all those regrets  
And call your mama while you can  
Don't give up just 'cause it seems so hard right now  
Get back up when you get knocked into the ground  
Just like a hold out  
Yeah I'm a hold out

Yeah you're a hold out  
Loving someone who may not deserve your love  
So maybe one day all your prayers will wake 'em up  
And the blind will see

Here's to the hold outs  
Building up your new small business from the ground  
Some ten years later it'll hit you hard like  
"Wait, we finally made it"

And I'm praying that the coming generation  
Will understand the work it took to build this nation

'Cause I can shake you with the truth  
Or I can show you what to do  
Pick up the bible, turn off the news  
And love your neighbor  
Throw away all those regrets  
And call your mama while you can  
Don't give up just 'cause it seems so hard right now  
Get back up when you get knocked into the ground  
Just like a hold out  
Yeah I'm a hold out

'Cause I can shake you with the truth  
Or I can show you what to do  
Pick up the bible, turn off the news  
And love your neighbor  
Throw away all those regrets  
And call your mama while you can  
Don't give up just 'cause it seems so hard right now  
Get back up when you get knocked into the ground  
Just like a hold out

Yeah I'm a hold out
