

I Call Bs On That

Buddy Brown

We got veterans living on the streets
So why the hell do we need refugees
They say come on in, you can bring your culture
Don't pledge allegiance to our flag, just be a vulture
And don't speak our language, just hold your hand out
Man I'm starting to think this whole thing was planned out

And I call BS on that, I think our country's been had
And old Ted Nugent can't do it alone
We been trying to tell you now it might be too late
Them politicians run the schools, vote 'em in and bend the rules
If you don't agree they tell you too bad, well, I call BS on that
Yeah, BS on that

You ain't entitled to a dagum thing
If you don't work then you just don't eat
'Cause it's better to be burning hot or freezing ass cold
Then to ever be caught dead, in the middle of the road

And I call BS on that, I think our country's been had
And Charlie Daniels can't do it alone
We been trying to tell you now it might be too late
Them politicians run the schools, vote 'em in and bend the rules
If you don't agree they tell you too bad, well, I call BS on that
Yeah, BS on that
C'mon

They're calling good evil, calling evil good
Hell, they're calling it progress in your neighborhood
But just hold fast old USA
'Cause I've had nightmares of it fading away

And I call BS on that, it's way past time to get mad
And old Bocephus can't do it alone
We been trying to tell you now it might be too late
Them politicians run the schools, vote 'em in and bend the rules
If you don't agree they tell you too bad, well, I call BS on that
Yeah, BS on that
Wake up America
