

# Patriot

**Buddy Brown**

No the government can't tell me what it is that I believe  
They're all poisoned out and brainwashed up in Washington DC  
I can't be bought I can't be twisted up cause I know who I am  
Ain't army gonna take my rights or come up on my land

Granddaddy gave me this gun  
And the flag in my yard  
He told me war is hell  
So you better stay armed  
Said don't go starting a fight  
But defend what is yours  
They try to force your hand  
Drag your name through the mud  
But they can't take that Patriot out of your blood

Out of your blood

100 million patriots like me  
Ain't gonna stand aside  
Ain't gonna retreat  
Men in boots built this country from the ground  
Men in suits are busy tearing it down

Granddaddy gave me this gun  
And the flag in my yard  
He told me war is hell  
So you better stay armed  
Said don't go starting a fight  
But defend what is yours  
They try to force your hand  
Drag your name through the mud  
But they can't take that Patriot out of your blood

Out of your blood

The greatest Nation ever to exist  
Lives deep within the blood of patriots  
The greatest Nation ever to exist  
Lives deep within the blood of patriots

Granddaddy gave me this gun  
And the flag in my yard  
He told me war is hell  
So you better stay armed  
Said don't go starting a fight  
But defend what is yours  
They try to force your hand  
Drag your name through the mud  
But they can't take that Patriot out of your blood

Out of your blood  
Out of your blood
