

Rabbits

Buddy Brown

Well me and my little lady got into it last night
She was pretty certain I was wrong and she was right
I saw a piece of China fly by my head and break some glass
It got pretty heated but boy we made up fast

'Cause she tells me she never wants to see me again
It's just all foreplay
'Cause she laughs and gives me that silly grin
And motions to come her way
And it's true she might have a temper
'Cause she picked up a few bad habits
And it's true we fight like dogs
But we make up like rabbits

Well I know the neighbors worry about two of us
They can't see how we could both be yellin' at night
Yet so happy when we wake up
Don't feel sorry for me, no it ain't really that bad
'Cause when I need some real hot lovin'
I'll just make her mad

And she tells me she never wants to see me again
It's just all foreplay
'Cause she laughs and gives me that silly grin
And motions to come her way
And it's true she might have a temper
'Cause she picked up a few bad habits
And it's true we fight like dogs
But we make up like rabbits
