

# The Middle Class Is Getting Screwed

Buddy Brown

We're overworked and overstressed in our nation  
While our senator goes on vacation  
I'd like to have them come on sit on my tailgate  
Ask him why he's kicking my friends in the face

The rich got theirs the poor's got welfare guess who's going to  
screwed  
I'm up at five asleep by midnight working like a fool  
Our money ain't offshore it's mom and pop stores in old church  
pews  
Why is the middle class the ones that all get screwed

Try to raise up our kids with respect  
While our country is getting further into debt  
We don't teach hardwork just self-  
esteem in a social justice cost  
Tried getting off the couch try following the law

The rich got theirs the poor got welfare guess who's going to  
get screwed  
I'm up at five asleep by midnight working like a fool  
Oh, money ain't offshores it's moms and pops an old church pews  
Why is the middle class the ones that all get screwed

We're treading water while congress gets a raise  
And if they had our jobs they wouldn't last a day  
And daddy got a laid off last year we're praying things pick up  
Because congress ain't the one that make the payments on his truck

The rich got theirs the poor got welfare guess who's going to  
get screwed  
We're up at at five asleep by midnight working like a fool  
I ain't had a damn vacation since corona first came through  
Why is the middle class the ones that all get screwed  
Why is the middle class the ones that all get screwed
