

The Whiskey Did

Buddy Brown

My truck door opens and, bam! There's that perfume she wore last night
Lipstick napkin and a hair clip laying over on the passenger side
Def Leppard's on track number three and my red t-shirt's still holding my keys
I got a long day coming up, but last night in this truck

She kicked her shoes off on the floorboard
Sang our song to me and she poured
Canadian whiskey in the top of an Armor All lid
Raised it up, said, "Here's to us baby"
Then the rest got kinda hazy
We didn't plan to go that far
But the whiskey did
Yeah, the whiskey did

Might take a full pot of coffee to get me going
Work days gonna be long and I put my name in for overtime
I check the mail to find a stack of bills I can't pay right now
but soon I will
I got a long day coming up, but last night in this truck

She kicked her shoes off on the floorboard
Sang our song to me and she poured
Canadian whiskey in the top of an Armor All lid
Raised it up, said, "Here's to us baby"
Then the rest got kinda hazy
We didn't plan to go that far
But the whiskey did
Yeah, the whiskey did

9 o'clock tonight and I'm so beat
But I looked down at my phone and she's calling me
So I go pick her up again

She kicked her shoes off on the floorboard
Sang our song to me and she poured
Some more of that whiskey in the top of an Armor All lid
Raised it up, said, "Here's to us baby"
Then the rest got really hazy
We didn't plan to go that far
Yeah, but the whiskey did
Yeah, the whiskey did
