

Till She Got The Ring

Buddy Brown

That girl was perfect, man she worked it
That day she met all his friends
So polite and even funny
He was gonna have her till the end
Then one day he saw the jeweler
And he got down on one knee
She was just the kind of woman
Any guy would wanna meet

Till she got the ring, claws came out
That girl turned mean as hell somehow
Those true colors started bleeding through the page
And we met her friends, oh my word
If they say anything of her
I best tell him 'fore he gets in way too deep
She found out about his money and played it sweet
Till she got the ring
Till she got the ring

Yeah there's an Oscar probably waiting
For her performance she put on
So called him and I said "Bruh
Holy cow we need to talk
Yeah that girl's poison
I know you might freak out
And it's probably hard to see
But she's so good she even fooled the girls
Played you perfectly

Till she got the ring, claws came out
That girl turned mean as hell somehow
Those true colors started bleeding through the page
Have you seen her friends, oh my word
If they say anything of her
Thought I'd tell you 'fore you got in way too deep
She found out about your money and played it sweet
Till she got the ring
Till she got the ring"

Rehearsal dinner, he walked in and
Said "I thank everyone here
I ain't gonna spend my life with her
And everybody cheered"

Then she threw the ring, claws came out
He saw her scream, he saw her shout
She started cussing everybody out by name
And all her friends were pure white trash
Guess we really saved his ass
Just one day before he got in way too deep
She found out about his money and played it sweet
Till she got the ring
Till she got the ring
