

## With Only You

Buddy Brown

There's a reason I haven't called you  
And there's a method to what seems madness  
Because I'm seeing how much I need you  
If I give in there's no turning back

If I was to hold you it just might be the end  
If I was to kiss you we wouldn't be just friends

I'd be falling for you in one easy move  
If I look at you a little too long I know what that might do  
And you've been waiting for me and I'm closer than you think  
To looking in your eyes to say  
"I've always wanted it this way,  
With only you, with only you  
With only you, with only you"

I've been fighting back this feeling  
But it ain't doing a bit of good  
It's so easy to see you smiling  
And to want you like you knew I would

If I was to hold you it just might be the end  
Yeah if I was to kiss you we wouldn't be just friends

'Cause I'd be falling for you in one easy move  
If I look at you a little too long I know what that might do  
And you've been waiting for me and I'm closer than you think  
To looking in your eyes to say  
"I've always wanted it this way,  
With only you, with only you  
With only you, with only you"

Yeah I'd be falling for you in one easy move  
If I look at you a little too long I know what that might do  
And you've been waiting for me and I'm closer than you think  
To looking in your eyes to say  
"Girl I've always wanted it this way,  
With only you, with only you  
With only you, with only you"
