

# Been There Done That

Buddy Guy

I have a story I'd like to tell  
I've been everywhere and done everything  
You might not believe it  
But it's true

Picked a lot of cotton  
Before I picked the guitar  
I drove myself a tractor  
Before I drove a car  
I've flown my own plane  
To get where I need to go  
I've been all around the world  
My home is on the road

I been there and done that  
Stories I could tell  
Been there done that  
Still alive and well

I've played smokey juke joints  
And every concert hall  
The rockers and high rollers  
Shared stages with them all  
Kings, queens and presidents  
I've seen them come and go  
From the palace to the white house  
I gave them all a show

I been there and done that  
Stories I could tell  
I been there and done that  
Still alive and well  
Been there done that  
Stories I could tell  
I been there I done that  
Still alive and well

I shake my head and I can't believe  
The hell that I've been through  
My life is like a movie  
But every scene is true

I been there done that  
Stories I could tell  
I been there done that  
Still alive and well  
Been there done that  
Stories I could tell  
I been there and done that  
I'm still alive and well

Still alive and well  
I've been there  
Stories I could tell  
I'm still alive and well
