

Dry Stick

Buddy Guy

Louisiana sky will turn dark in a minute
Storm clouds start leaking, like a river you're deep in it
Wood stove kept us warm, when the rain poured down
Mama always said keep some dry wood around

Save a dry stick for a wet day
You never know what's coming your way
Rain or shine who can say
Save a dry stick for a rainy day

Hope for the best be ready for the worst
If you're riding in a Cadillac make sure it ain't a hearse
Give it all you got when you got nothing
When you get what you need
Try to give back something

Save a dry stick for a wet day
You never know what's coming your way
Rain or shine who can say
Save a dry stick for a rainy day

The world is changing all the time
Always gonna have another mountain to climb
Bound to be some heavy weather up ahead
I just go right back to what mama said

Save a dry stick for a wet day
You never know what's coming your way
Rain or shine who can say
Save a dry stick for a rainy day
