

## Every Girl I See

Buddy Guy

You look good and you look good  
You look good and you look good  
And every girl I see are looking good to me  
And every girl I see are looking good to me

You know the pretties girl that I've ever seen  
Was a girl right here, looking like a queen  
And how she looks, no words can tell  
Because all of those girls, you know they sure look well  
And every girl I see are looking good to me  
And every girl I see are looking good to me

And the girl I see had an angel's face  
She has so mush charm and suit in laze  
And what shall do, I don't know  
Because I've never felt like this before  
And every girl I see are looking good to me  
And every girl I see are looking good to me

You look good and you look good  
You look good and you look good  
And every girl I see are looking good to me  
And every girl I see are looking good to me

Well I do anything to make that bit  
You know I get exited when I see that chick  
My heart gets happy and I'm full of faith  
Because all of these girls, are tending mean  
And every girl I see are looking good to me  
And every girl I see are looking good to me

I can't put you down for no-one else  
You know you look so good, I can't control myself  
And I go crazy, you know I'm not to blame  
It's a all of your lovely, pretty little things  
And every girl I see are looking good to me  
And every girl I see are looking good to me
