Flesh & Bone

Buddy Guy

Daddy read the good book through and through
Said that the Lord's word is the only truth
It ain't over the day you die
We all live on In the sweet bye and bye

This life is more than flesh and bone
Find out now before you're gone
When you go your spirit lives on
This life is more than flesh and bone

Now I know my daddy was right
I read that good book and I've seen the light
Mama and daddy have passed and gone
They're still with me 'cause love lives on

This life is more than flesh and bone
Find out now before you're gone
When you go your spirit lives on
This life is more than flesh and bone

The God I feed on is real as rain
More than words can ever explain
We'll meet again some sweet day
Far beyond this world of pain

This life is more than flesh and bone
Find out now before you're gone
When you go your spirit goes on
This life is more than flesh and bone
