Help wanted
You got a job if you qualify
Help wanted
You got a job if you qualify
My arms are open for you
All you've gotta do is just walk inside
I need me a woman
That is handy with love and kisses
Since I lost my baby
That's what I've been steady missin'
She gotta know
How to turn me on and off
And wantin' to please me
Each and every day
Tryin' (gonna heart ??)
Each and every way
Help wanted
You got a job if you qualify, yes you have
Help wanted
You got a job if you qualify, yes you have
My arms are open to you
All you've gotta do is just walk inside
I need a foxy momma
Diggin' on me and me alone
I'll make her my queen
As long as she don't bitch and moan
I'm healthy, single and free
I got everything a woman needs
I romance you
Satisfaction is guaranteed

You got a job if you qualify, yes you have
My arms are open for you
All you've gotta do is just walk inside
'Cmon in girl
Ease on in on me baby
In won't hurt one bit
And she knows how to cook
And she knows to (rid a boy ??)
It doesn't matter how she look

My arms are open for you:
