House Party

Buddy Guy

Got an invitation early this week
For a good time at the end of my street
I brought white lightnin' and homemade wine
Hey everybody, it's buddy guy time

House party all night long
House party dusk till dawn
Gonna roll and rock
Up and down the block

Chips on the table, gumbo in the pot
Band's in the basement givin' all they got
I'm the eighth child of the seventh son
My daddy taught me how to have my fun

House party all night long
House party dusk till dawn
Gonna roll and rock
Up and down this block

Did I hear you say you live three doors down
Honey I can't believe I haven't seen you around
You could light it up and I wish you would
I bet you can dance 'cause you look so good

There's a house party all night long
There's a house party dusk till dawn
We gonna roll and rock
Up and down the block

There's a house party all night long
There's a house party dusk till dawn
We gonna roll and rock
Up and down the block
